- Colocamos en la siguiente pantalla los datos del servidor “intramora1.institutomora.edu.mx” y damos siguiente.

The image shows a screenshot of a Windows dialog box titled "Aventail VPN Connection Setup Wizard". The dialog has a blue header bar with a close button (X) in the top right corner. Below the header, the title "Aventail VPN Connection" is displayed in bold, followed by the question "What is the appliance host name or IP address?". To the right of this text is a small icon of a person at a computer. Below the question, there is a text input field containing the text "intramora1.institutomora.edu.mx". Above the input field, the instruction "Enter the host name or IP address for the VPN server to which you are connecting:" is displayed. Below the input field, there is a note: "For example, you might enter vpn.example.com or 159.57.0.0.". At the bottom of the dialog, there are three buttons: "< Atrás", "Siguiete >", and "Cancelar".

6. Dejamos que se haga el proceso de conexión.

The screenshot shows a Windows-style dialog box titled "Aventail VPN Connection Setup Wizard". The main heading is "Aventail VPN Connection" with the sub-heading "What is the login group?". Below this, there is a paragraph of instructions: "Select or type the group name associated with your login account (this information should have been supplied by your system administrator). Click Refresh to retrieve an updated list of group names from the appliance." The central area is a "Logon group" field containing the text "Downloading current list of login groups." and "Connecting...". Below this is a label "Select or enter your login group:" followed by an empty dropdown menu. At the bottom of this section are "Refresh" and "Cancel" buttons. At the very bottom of the dialog are three buttons: "< Atrás", "Siguiente >", and "Cancelar". The "Atrás" button is highlighted with a dashed blue border.
